

Bio-Practica Toxaprevent Medi Pure 60c

Medical Device to Strengthen the Gastrointestinal Wall Barrier. TOXAPREVENT® contains MANC® (modified and activated natural clinoptilolite). Clinoptilolite is a highly researched medicinal volcanic mineral. TOXAPREVENT® strengthens the intestinal wall barrier by effectively removing toxins and intestinal irritants from the intestinal tract.

Full contents of product:

Clinoptilolite (MANC®) 400 mg

Capsule material: cellulose

Each TOXAPREVENT® MEDI PURE capsule contains: Excipient free

Product Actions:

Indications

Targeted lower GIT support

For use in natural detoxification programs where intestinal support is beneficial

Provides pure MANC®

Formulation Notes

TOXAPREVENT® is not absorbed through the gastro-intestinal tract into the bloodstream. In fact, because it is not absorbed across the intestinal wall it is classed as a therapeutic device, not a supplement.

TOXAPREVENT® MEDI PURE comes in an acid resistant vegetable coated capsule, designed specifically to bypass the stomach and deliver MANC® directly to the small and large intestinal tracts.

Dosage:

2-3 capsules three times daily before every main meal with plenty of liquid, i.e. at least 200 mL of water.

Storage: Store in a dry place below 40C. Protect from direct sunlight.

Caution: Do not exceed the specified daily dose without having consulted your healthcare professional. The insert of the package says do not use for longer than 30 days in a row without a review.

Ensure water intake meets 1.5 - 2L each day.
